Dear Sir,

My name is Hebe. I have been your reader since 2016. I have learnt a lot from your newspaper. However, I do not think your newspaper is interesting enough. There are three main reasons. Firstly, the news articles are not related to the needs of local students. Secondly, I think there is not enough news about our local students' hobbies. Thirdly, there is not enough news about current affairs. I will give you some suggestions. Hope you would consider them.

I suggest that you can add some articles that are related to our needs, for example, recipes. It would be fun and useful to read recipes in the newspaper twice a week. You can teach us how to make desserts and cook Chinese dishes. The food cooked by ourselves is healthier and tastier. Besides, cooking is fun. It can help reduce our pressure and let us relax, too.

In addition, there can be more articles about local news and current affairs. We want to know what is happening in Hong Kong. You can write more about local accidents, so we can prevent the accidents from happening. The newspaper can add some global news too. It can widen our horizon.

Furthermore, there can be more articles about our hobbies, like keeping pets. You can talk about dogs and cats. Some readers who have pets can get more information and know how to be a responsible pet owner from your newspaper. Moreover, readers who want to have pets would know where to buy or adopt new pets.

Thank you for reading my letter. Hope my suggestions can help you. I am looking forward to your kind reply.

Yours faithfully,

*Hebe*
