### My Best Friend

My best friend is Molly Ng. She is seven years old. She has small and round eyes. She has a straight nose. She does not wear glasses. She has long and straight hair. She is tall. She has small ears. She also has a small mouth and white skin.

Molly is creative because she always gets lots of new ideas. She is smart because she is always good at doing her homework. She is cheerful because she always smiles and laughs. She is funny because she always makes funny faces for me. Her favourite colour is black. Her favourite food is sushi. She sets the table at home every day. I think she is a good girl.

I like to spend a lot of time with Molly. I usually eat with her at recess. I also go to the library with her.

I want to be friends with her forever because she is tidy, kind and clean. She shares snacks with me. When I am sad, she comforts me. When I am hurt, she tells the teacher about me. I like her very much.
