

## My Classmate

My best friend in class is Victoria. She is seven years old. She has small eyes, a small mouth, a medium sized nose and a pair of tiny ears.

Victoria is nice because she always smiles. She is polite. She says 'good morning' to me every morning. She is funny. She always tells me jokes. She makes me laugh. She is friendly, too. She plays with me.

Her favourite subjects are PE and General Studies. She is good at doing sums. She likes to dance and ice-skate.

I can learn to be more cheerful from her. I like to be friends with her because she is friendly and nice. I want to be friends with her forever!
