My Dream Job

My dream job is being a fashion designer. I want to be a fashion designer in a big international clothes shop because I like drawing and designing clothes.

Fashion designers need to design new clothes, handbags and accessories. They also need to design collections for different parties, weddings, evening events and of course for fashion shows. It is important for fashion designers to have a good understanding of design and fashion trends.

Many people think being a fashion designer is a boring job. However, I think I will enjoy being a fashion designer because I like designing and drawing things.

I think this job suits me because I am creative and patient. I am also good at drawing. Therefore, I need to keep practising drawing at home and pay close attention to fashion trends. Meanwhile, I also need to continue to improve my I.T. skills. Last but not least, I need to try my best and study hard in order to make my dream come true.
